**MEMORABLE
WALLS WITH A
GLORIOUS
STORY...**

Memuraa

/mem'oorə/ | Memorable walls with a glorious story

Memuraa is on an exciting journey of spreading a fine layer of art intertwined with glorious stories onto the blank canvas-like walls. Working with international trends, eco-friendly materials, and a whole new perspective of creativity in the wall decor segment, we are here to make it a delightful and memorable sight for anyone who sets their eyes on them.

“

“Backed with extensive research and deep understanding, Memuraa is the first company to offer exterior wall covering manufactured in India, and perfect for the Indian weather conditions.”

THE STORY

It all began with a desire to bring the most vivid imaginations and designs to life in the wall decor segment with complete freedom of customization. The desire seemed fairly straightforward but turned out to be an adventurous voyage filled with new discoveries.

Exploring many upcoming techniques, studying the needs of the market, understanding the existing concerns of the industry, and evolving the set manufacturing process along the way, finally led us to launch Memuraa in 2019. Already pioneering the market to provide creative innovative wall finishes to customers, we are the first company to offer exterior wall coverings manufactured in India.

”

“ For Memuraa, artists and art are equally important. We believe in supporting and uplifting the community of artists by giving them a platform to showcase their talent.

Murthy

Being a boy from a farmer's family he often had the chance to catch sight of minute things which congregate to form something extraordinary. He worked under a well known artist Mr.Riyas Komu.

He creates artworks with a stippling technique, using black ink, millions of tiny dots and thousands of hours.

Alessandro Scanziani

Alessandro Scanziani is an Italian artist from birth, raised in an environment of painters, writers and musicians. He studied at the IED European Design Institute in Milan, then founded his own design studio.

His art evolves exploring the home décor sector where he expresses himself by combining art and emotions. He exhibited his works of art in some galleries in Bergamo, Milan, The Biennale in Venice and art in Genoa.

In 2012 he won the first International award for greeting cards UNICEF Celebration Christmas.

Tashi

Tashi studio is one of the top upcoming design studios based in Spain, creating exquisite and unique print patterns for the fashion and lifestyle industry across the globe.

Tashi believes in the balance of things: he creates complex but soft, extravagant and yet elegant works. His overflowing imagination and his constantly renewed creativity are his driving forces. "The art of the imagination is based on our ability to observe what surrounds us and imagine its past, present and future," he says.

Pattern

We have something for the modern apartment and for you who prefer as little pattern as possible but still want to add some life to your walls. Our patterns are a take on classics, scaled up to larger sizes creating a new perspective for the design. Wallpapers with smaller patterns can easily create space and movement in your walls whilst still staying discrete.

Tropical

We'd like to invite you to a secluded place where peace and harmony can be found. A place where you can go to escape the noise when the murmurs of this world have become too loud. And listen to the refreshing sounds of your own voice. This collection has been inspired by the purity and simplicity of the secret getaways of the tropics. With this collection, we want to invite you to create your own tropical oasis, a sanctuary, a secret garden, in the only place that truly matters – your home.
